WORK EXPERIENCE

Ackama **Jan. 2023 – Present**

Senior Software Developer | Dec. 2023- Present *Melbourne, Australia*

- Ackama is an AU-NZ digital agency specialising in government initiatives, energy suppliers, and purpose-driven startups.
- Acted as a technical domain expert in projects, including infrastructure (AWS & third-party services)
    - **Stack**: Javascript/Typescript (React, React Native, Vue, Node); Ruby on Rails; Python (Django); CI/CD; AWS; GCP; Docker; Terraform; MongoDB; PostgreSQL;
- Led and mentored junior and mid-level developers, driving technical excellence and team collaboration.
- Notable clients: Kaluza, AESOP, Mindset Health, Nura, Ethical Jobs, Good on You, Agronius and Ynomia.

Software Developer | Aug. 2018 – Dec. 2023

- Prior to my promotion to Senior Developer, I led impactful hybrid mobile projects and delivered solutions across varied client requirements.

VicSuper **Jan. 2018 – July 2018**

Angular 2/ Ionic 2 Developer *Melbourne, Australia*

- VicSuper (now Aware Super), an Australian superannuation company with over 20 years of experience; launched its first hybrid mobile app for Android and iOS during my tenure.
- Developed critical features, implemented CI/CD pipeline, and improved security protocols.
    - **Stack**: Javascript/Typescript (Angular 2, Ionic 2); Ruby; Android & iOS platforms.

Ideauno **July 2016 – Nov. 2017**

Software Engineer *Santiago, Chile*

- Led mobile hybrid app and web projects, participating in the entire software development lifecycle.
- Mentored colleagues in Angular, Ionic, and Ruby on Rails, and drove a shift in the company tech stack.

Kunder **Feb. 2016 – July 2016**

Software Engineer *Santiago, Chile*

- Developed Ionic-Angular apps for the banking industry with a focus on security and Test-Driven Development.

Random ERP **Feb. 2015 – Feb. 2016**

Junior Software Engineer *Santiago, Chile*

- Contributed to decision-making, development, reverse engineering, and complex database modeling for ERP solutions.

Rinostro S.A **Sept. 2014 – Feb. 2015**

Junior Software Engineer *Santiago, Chile*
